DISTINCTIVE  
AMERICAN

# PEWTER

BY

HANLE & DEBLER

The elegance and serviceability which have made fine pewter an American tradition are skillfully combined to make every Hanle & Debler creation a masterpiece of the pewterer's art.

The authentic designs of these heirloom pieces enhance the texture, sheen and inherent beauty of the pewter, and blend naturally with the decor of any home. The collector may choose pieces in contemporary, colonial, or in styles reminiscent of the Renaissance Masters.

Hanle & Debler's lustrous, tarnish-resistant pewter will retain its sheen for a long time without regular polishing. It can be washed periodically with mild soap and water, and dried thoroughly. A good pewter polish which can be obtained from Hanle & Debler will bring back the original lustre to pewterware which has become dulled.
